ALL INDIA WEATHER SUMMARY AND FORECAST BULLETIN

Significant Weather Features

Weather Forecast:

Isolated to scattered light/moderate rainfall/snowfall very likely over Jammu-Kashmir-Ladakh-Gilgit-Baltistan Muzaffarabad on 27th, and during 29th December-01st January and over Himachal Pradesh, Uttarakhand on 27th, 30th & 31st December.

Isolated Thunderstorm and lightning with gusty wind speed (30-40kmph) likely to prevail over Andaman & Nicobar Islands during 27th -30th December.

Forecast of minimum temperatures:

No significant change in minimum temperature very likely over Northwest, Central & East India for next 4-5 days and rise by 2-3°C thereafter for subsequent 3 days.

No significant change in minimum temperature over remaining parts of the country during next 7 days.

Dense Fog & Cold wave Warnings:

Dense to very dense fog conditions during night/morning hours very likely in isolated pockets of Assam till 28th; Himachal Pradesh till 31st; with Dense fog conditions during night/morning hours very likely in isolated pockets over Arunachal Pradesh till 30th, Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, Odisha till 31st; Sub-Himalayan West Bengal & Sikkim till 29th, Uttarakhand till 31st December.

Dense to very dense fog conditions very likely to prevail in night/morning hours in few parts of Bihar till 29th December and Dense fog in isolated pockets for subsequent 4 days.

Dense to very dense fog conditions very likely to prevail in night/morning hours in few parts of Punjab Haryana-Chandigarh till 30th December and in isolated pockets for subsequent 2 days.

Dense to very dense fog conditions very likely to prevail in night/morning hours in some/many parts of Uttar Pradesh till 01st January 2026.

Cold wave conditions very likely in isolated pockets of north Rajasthan on 28th, Jharkhand on 28th & 29th December.

Cold day to severe cold day conditions very likely at a few places over East Uttar Pradesh on 27th;

Cold day conditions very likely at isolated pockets over Sub-Himalayan West Bengal on 27th; Bihar during 27th-31st, Uttarakhand during 27th -29th; West Uttar Pradesh on 27th and East Uttar Pradesh on 29th December.

*Red color warning does not mean "Red Alert" Red color warning means "Take Action"

Forecast and warning for any day is valid from 0830 hours IST of day till 0830 hours IST of next day

(Service to the nation since 1875)

Main Weather Observations:

- ❖ **Rainfall distribution** (from 0830 hours IST of yesterday to 0530 hours IST of today): **at many places** over Tamilnadu Puducherry & Karaikal; **Dry** over rest of the country.
- ❖ **Fog Condition Observed (at 0530 hours of today): Dense fog conditions:** at most places over Punjab, at a few places over Uttar Pradesh, at isolated places over Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, Bihar and Haryana Chandigarh & Delhi **Moderate fog conditions:** at a few places over Bihar, at isolated places over Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, East Uttar Pradesh and Haryana Chandigarh & Delhi **Shallow fog conditions:** at a few places over Uttar Pradesh, at isolated places over Nagaland, Manipur, Mizoram & Tripura, Gangetic West Bengal, Odisha, Bihar, Haryana Chandigarh & Delhi and Chhattisgarh
- ❖ **Visibility reported (at 0530 hours of today): Assam & Meghalaya:** Tezpur (dist Sonitpur), Barapani/shillong (dist East Khasi Hills) 50.0 Each, Dhubri (dist Dhubri) 200.0; **Bihar:** Gaya (dist Gaya) 50.0, Patna-airport (dist Patna), Bhagalpur (dist Bhagalpur) 200.0 Each; **Nagaland, Manipur, Mizoram & Tripura:** Agartala AP (dist West Tripura) 50.0, Aizawl-lengpui (dist Mamit) 200.0; **East Uttar Pradesh:** Bahraich (dist Bahraich), Gorakhpur (dist Gorakhpur), Allahabad (dist Prayagraj) 50.0 Each, Kanpur Airforce (dist Kanpur Nagar) 200.0; **West Uttar Pradesh:** Bareilly (dist Bareilly) 50.0; **Haryana Chandigarh & Delhi:** Ambala (dist Ambala) 50.0, New Delhi (safdarjung) (dist South West Delhi) 200.0; **Punjab:** Patiala (dist Patiala), Chandigarh (dist Chandigarh), Amritsar (rajasansi) AP (dist Amritsar) 50.0 Each.

Yesterday, **Cold day to severe cold day conditions** observed at isolated places over East Uttar Pradesh; **cold day conditions** at a few places over East Uttar Pradesh.

- ❖ **Minimum Temperature Departures (as on 26-12-2025): below normal(-1.6°C to -3.0°C)** at many places over Chhattisgarh and Coastal Karnataka; at few places over Andaman & Nicobar Islands, Gangetic West Bengal, Jharkhand, East Madhya Pradesh, Telangana and Lakshadweep; at isolated places over East Uttar Pradesh, East Rajasthan, West Madhya Pradesh, Konkan & Goa, Madhya Maharashtra, Marathwada, Vidarbha, Rayalaseema, Tamil Nadu, Puducherry & Karaikal, North Interior Karnataka, South Interior Karnataka and Kerala & Mahe. **appreciably below normal(-5.0°C to -3.1°C)** at many places over North Interior Karnataka; at isolated places over Assam & Meghalaya, Gangetic West Bengal, Odisha, Jharkhand, Bihar, East Uttar Pradesh, East Rajasthan, West Madhya Pradesh, Madhya Maharashtra, Vidarbha, Chhattisgarh, Telangana, Rayalaseema, Tamil Nadu, Puducherry & Karaikal, South Interior Karnataka and Kerala & Mahe. **markedly below normal(< -5.0°C)** at few places over Assam & Meghalaya, Gangetic West Bengal, West Madhya Pradesh, East Madhya Pradesh, Gujarat Region, Tamil Nadu, Puducherry & Karaikal and South Interior Karnataka; at isolated places over Sub Himalayan West Bengal & Sikkim, Odisha, Jharkhand, Bihar, Himachal Pradesh, Saurashtra & Kutch, Konkan & Goa, Coastal Andhra Pradesh & Yanam, Rayalaseema, North Interior Karnataka and Kerala & Mahe. **The lowest minimum temperature** of 4.2°C is reported at RAJGARH-OBS (MADHYA PRADESH) over the Plains of India.
- ❖ **Maximum Temperature Departures (as on 26-12-2025): below normal(-1.6°C to -3.0°C)** at many places over Jharkhand. **The highest maximum temperature** of 35.2°C is reported at KARWAR (KARNATAKA), and KOTTAYAM (KERALA).

*Red color warning does not mean "Red Alert" Red color warning means "Take Action"

Forecast and warning for any day is valid from 0830 hours IST of day till 0830 hours IST of next day

(Service to the nation since 1875)

Meteorological Analysis (Based on 0530 hours IST)

- The **Western Disturbance** as a trough in middle tropospheric westerlies with its axis at 5.8 km above mean sea level now runs roughly along Long. 65°E to the north of Lat. 25°N.
- **Subtropical westerly Jet Stream** with core winds of the order of 125 knots at 12.6 km above mean sea level continues to prevail over Northeast India.
- A fresh **Western Disturbance** is likely to affect western Himalayan region from 30th December, 2025.

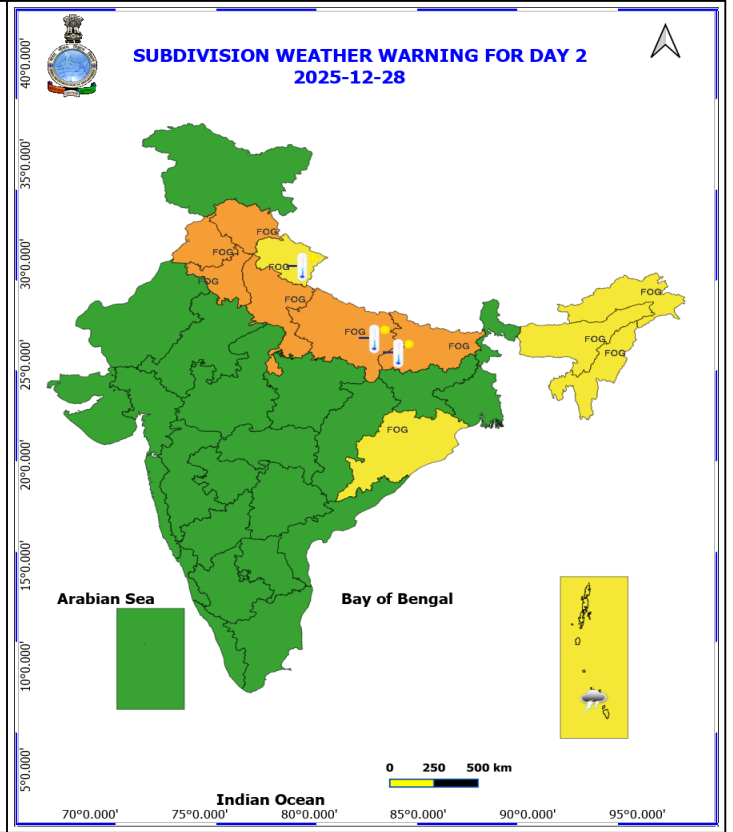

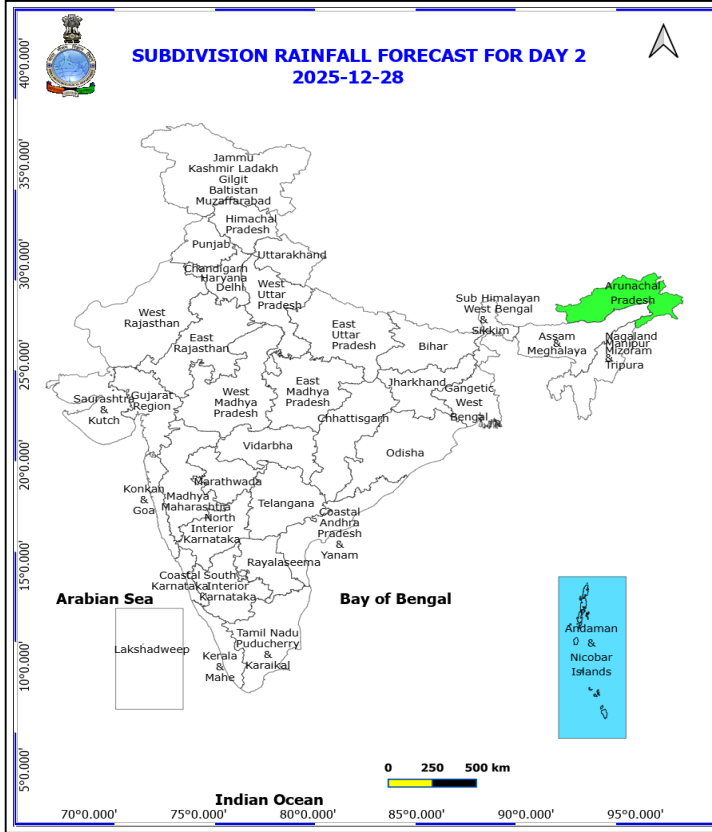

Weather Outlook for subsequent 3 days

Isolated to Scattered rainfall activity over Western Himalayana Region, Tamil Nadu, Kerala, Karnataka and Islands.

27 December (Day 1)

- ❖ **Thunderstorm accompanied with lightning & gusty winds(30-40kmph)** very likely at isolated places over Andaman & Nicobar Islands.
- ❖ **Cold wave conditions** very likely at isolated places over Jharkhand.
- ❖ **Cold Day conditions** very likely at isolated places over Bihar, Uttarakhand and West Uttar Pradesh.
- ❖ **Cold Day to Severe Cold Day conditions** very likely at isolated places over East Uttar Pradesh.
- ❖ **Dense Fog** very likely at isolated places over Arunachal Pradesh, Assam & Meghalaya, Nagaland, Manipur, Mizoram and Tripura, Odisha, Sub Himalayan West Bengal & Sikkim and Uttarakhand.
- ❖ **Dense to Very Dense Fog** very likely at isolated places over Bihar, Haryana, Chandigarh & Delhi, Himachal Pradesh, Punjab and Uttar Pradesh.
- ❖ Squally winds with speeds reaching 45 kmph to 55 kmph gusting to 65 kmph is likely to prevail over Gulf of Mannar & adjoining some parts of Comorin area.

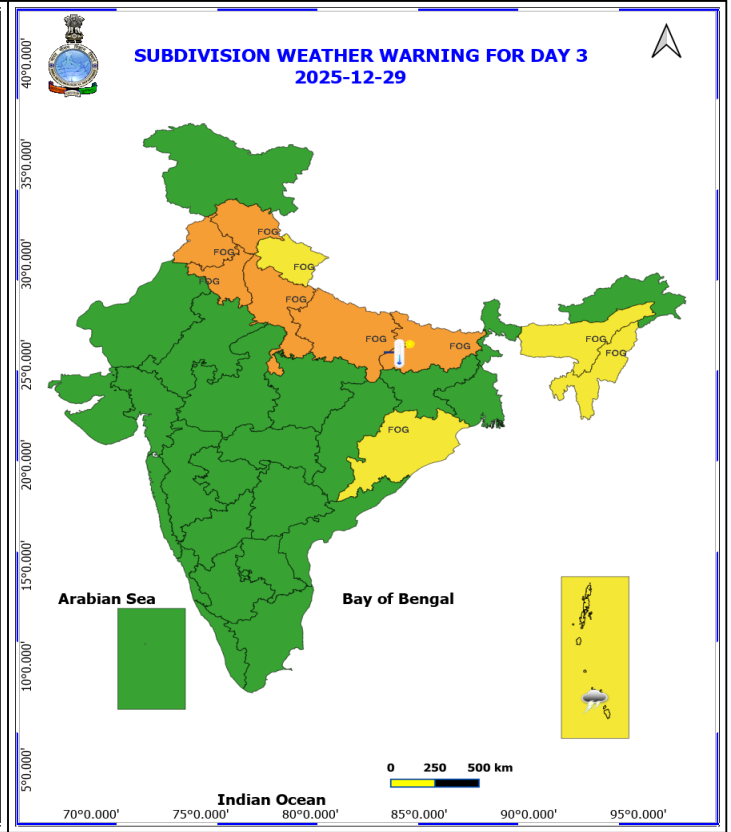

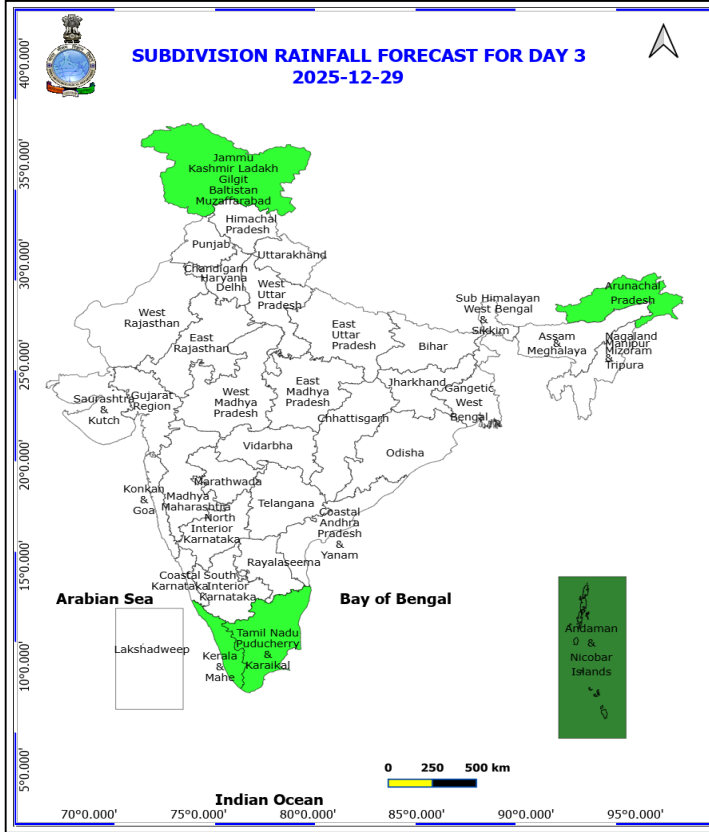

28 December (Day 2)

- ❖ **Thunderstorm accompanied with lightning & gusty winds(30-40kmph)** very likely at isolated places over Andaman & Nicobar Islands.
- ❖ **Cold Day conditions** very likely at isolated places over Bihar, East Uttar Pradesh and Uttarakhand.
- ❖ **Dense Fog** very likely at isolated places over Arunachal Pradesh, Assam & Meghalaya, Bihar, Nagaland, Manipur, Mizoram and Tripura, Odisha and Uttarakhand.
- ❖ **Dense to Very Dense Fog** very likely at isolated places over Haryana, Chandigarh & Delhi, Himachal Pradesh, Punjab and Uttar Pradesh.
- ❖ **Squally winds with speeds reaching 45 kmph to 55 kmph gusting to 65 kmph** is likely to prevail over Gulf of Mannar & adjoining some parts of Comorin area.

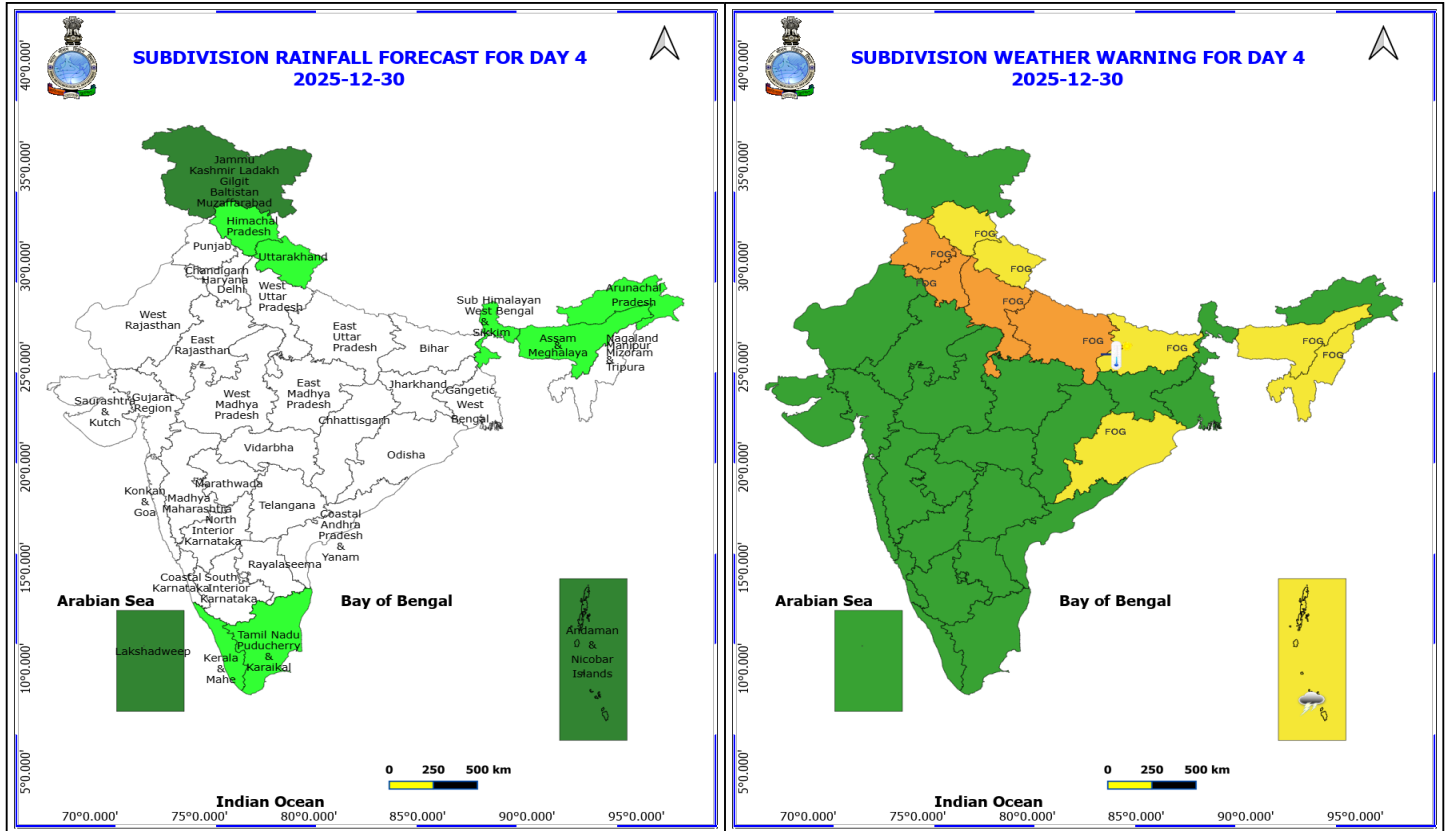

***Red color warning does not mean "Red Alert" Red color warning means "Take Action"**
Forecast and warning for any day is valid from 0830 hours IST of day till 0830 hours IST of next day

(Service to the nation since 1875)

29 December (Day 3)

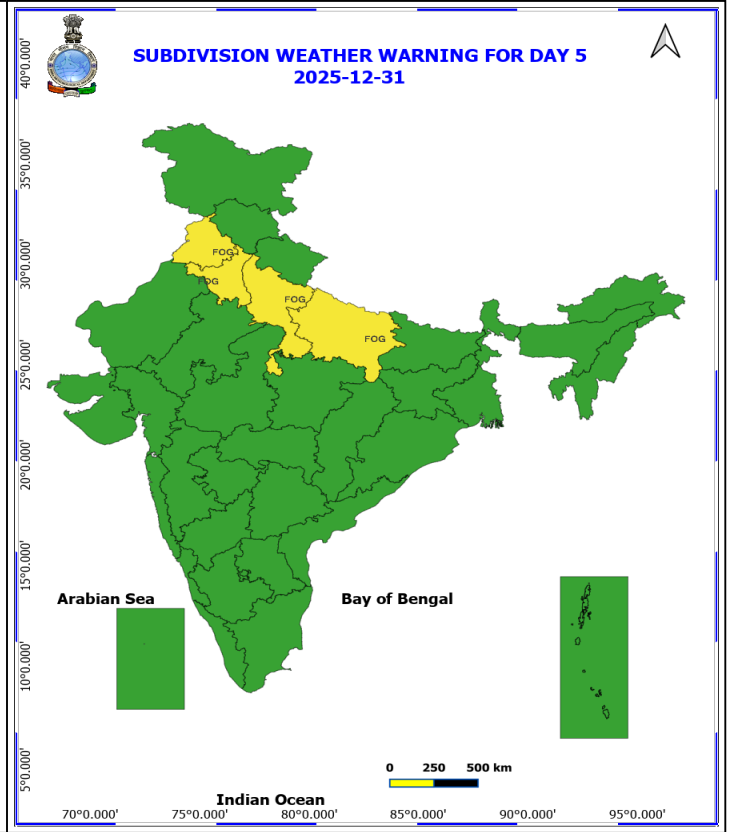

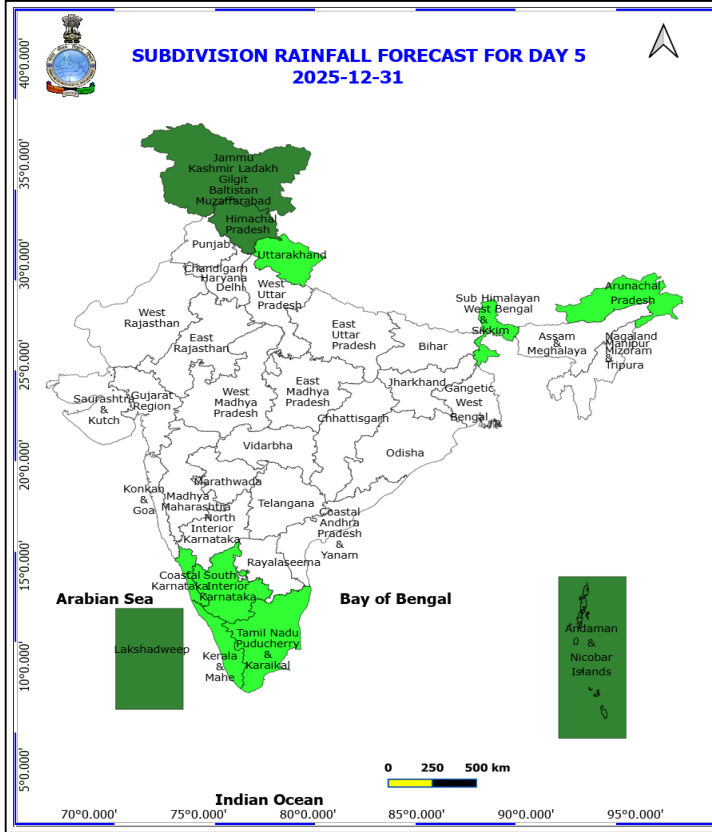

- ❖ **Thunderstorm accompanied with lightning & gusty winds(30-40kmph)** very likely at isolated places over Andaman & Nicobar Islands.
- ❖ **Cold Day conditions** very likely at isolated places over Bihar.
- ❖ **Dense Fog** very likely at isolated places over Assam & Meghalaya, Bihar, Nagaland, Manipur, Mizoram and Tripura, Odisha and Uttarakhand.
- ❖ **Dense to Very Dense Fog** very likely at isolated places over Haryana, Chandigarh & Delhi, Himachal Pradesh, Punjab and Uttar Pradesh.
- ❖ Squally winds with speeds reaching 45 kmph to 55 kmph gusting to 65 kmph is likely to prevail over Gulf of Mannar & adjoining some parts of Comorin area.

30 December (Day 4)

- ❖ **Thunderstorm accompanied with lightning & gusty winds(30-40kmph)** likely at isolated places over Andaman & Nicobar Islands.
- ❖ **Cold Day conditions** likely at isolated places over Bihar.
- ❖ **Dense Fog** likely at isolated places over Assam & Meghalaya, Bihar, Himachal Pradesh, Nagaland, Manipur, Mizoram and Tripura, Odisha and Uttarakhand.
- ❖ **Dense to Very Dense Fog** likely at isolated places over Haryana, Chandigarh & Delhi, Punjab and Uttar Pradesh.

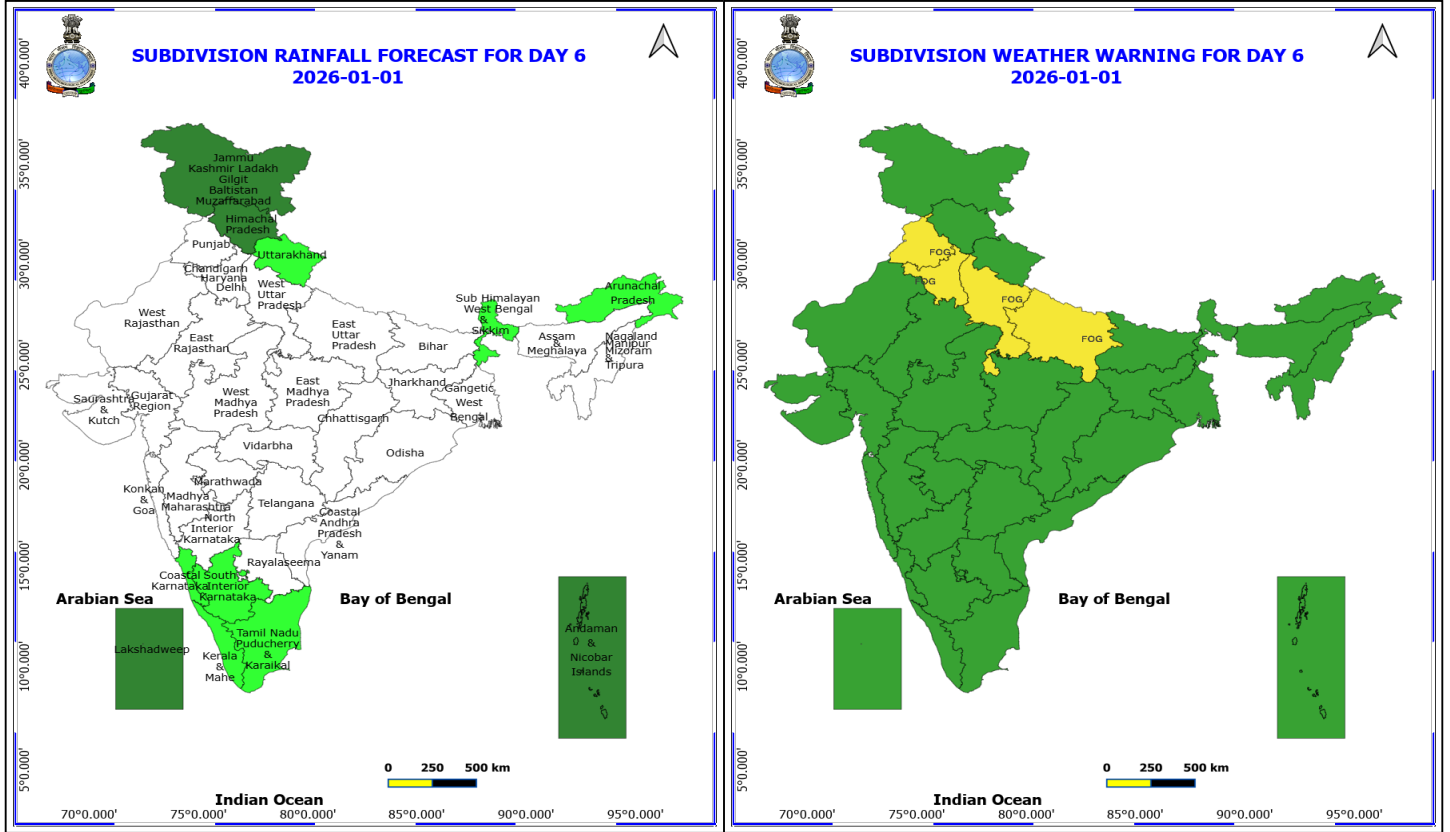

No Fishermen Warning

31 December (Day 5)

❖ **Dense to Very Dense Fog** likely at isolated places over Haryana, Chandigarh & Delhi, Punjab and Uttar Pradesh.

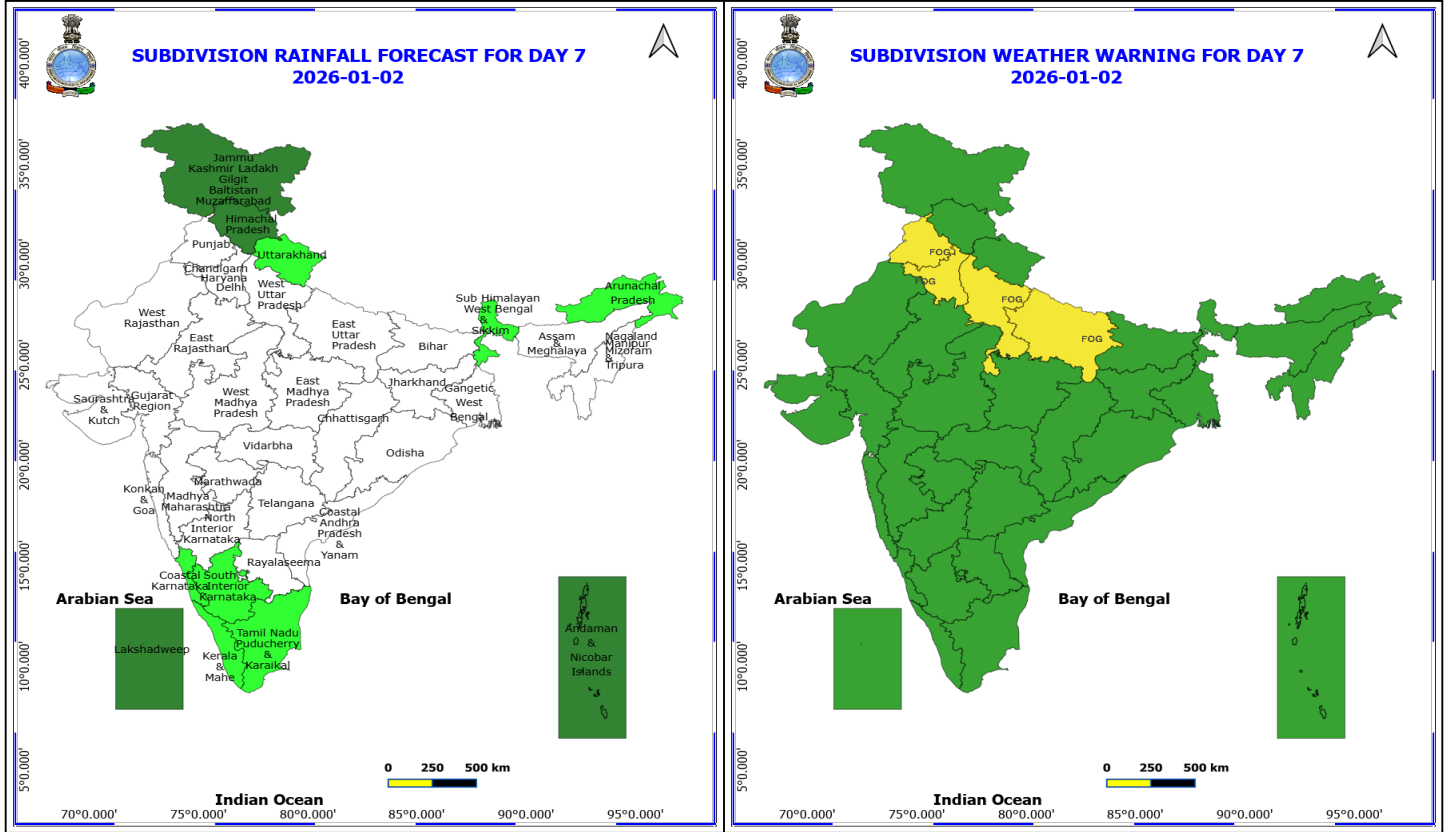

No Fishermen Warning

1 January (Day 6)

❖ **Dense to Very Dense Fog** likely at isolated places over Haryana, Chandigarh & Delhi, Punjab and Uttar Pradesh.

No Fishermen Warning

2 January (Day 7)

❖ **Dense to Very Dense Fog** likely at isolated places over Haryana, Chandigarh & Delhi, Punjab and Uttar Pradesh.

No Fishermen Warning

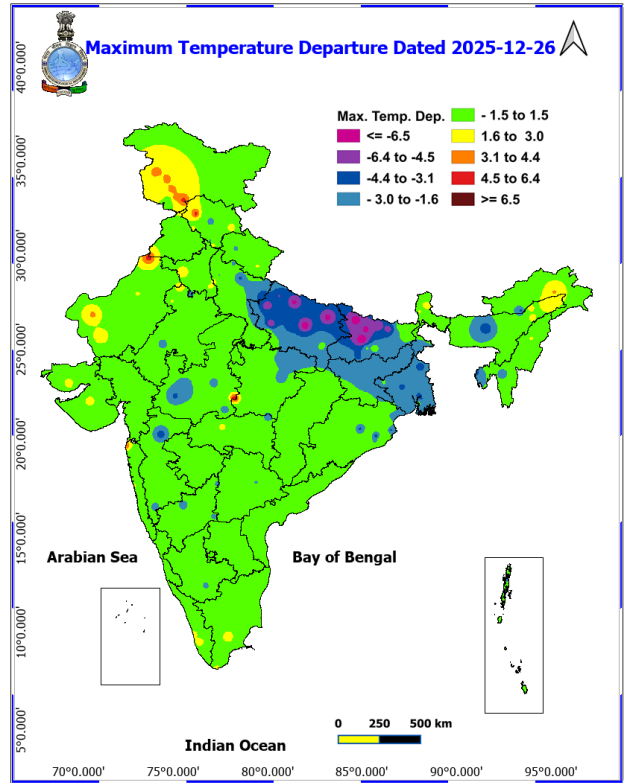

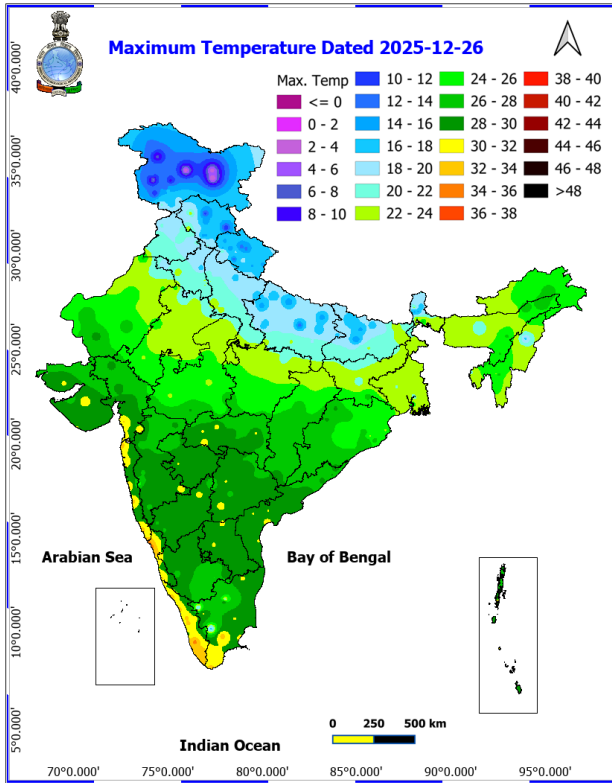

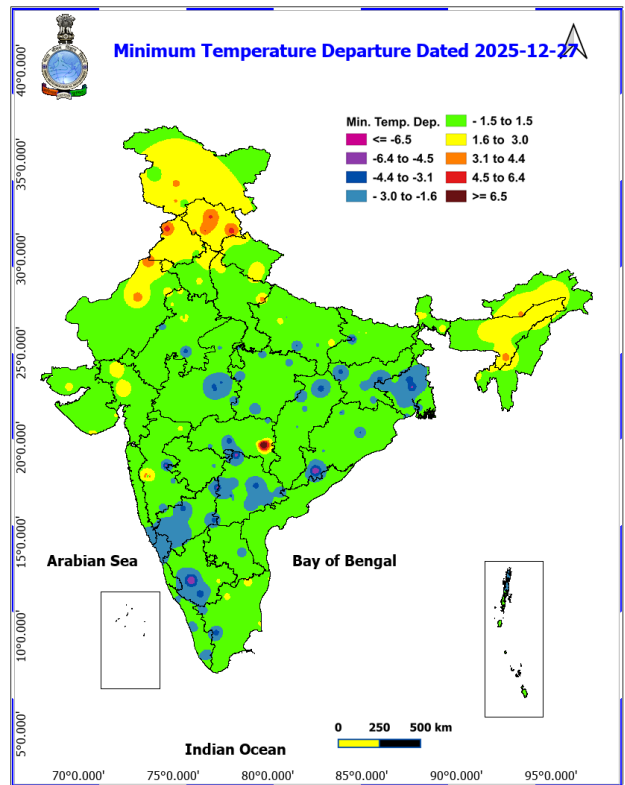

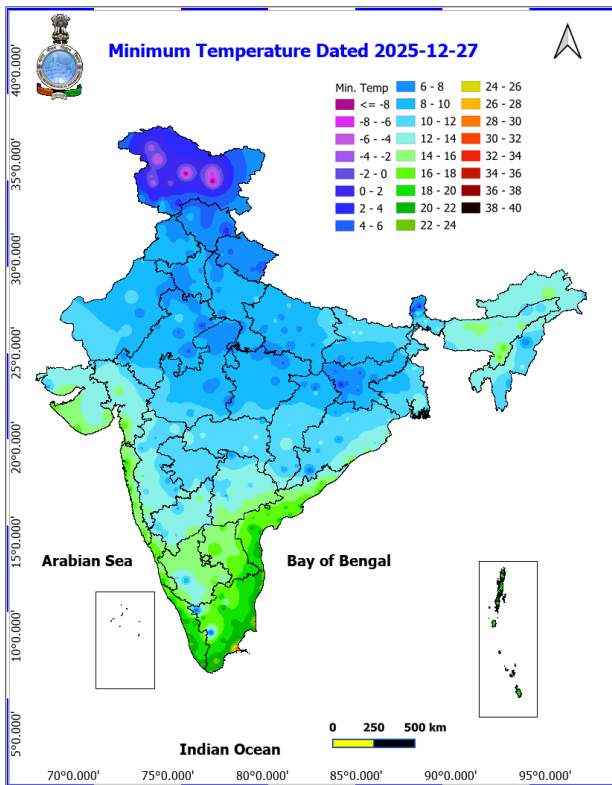

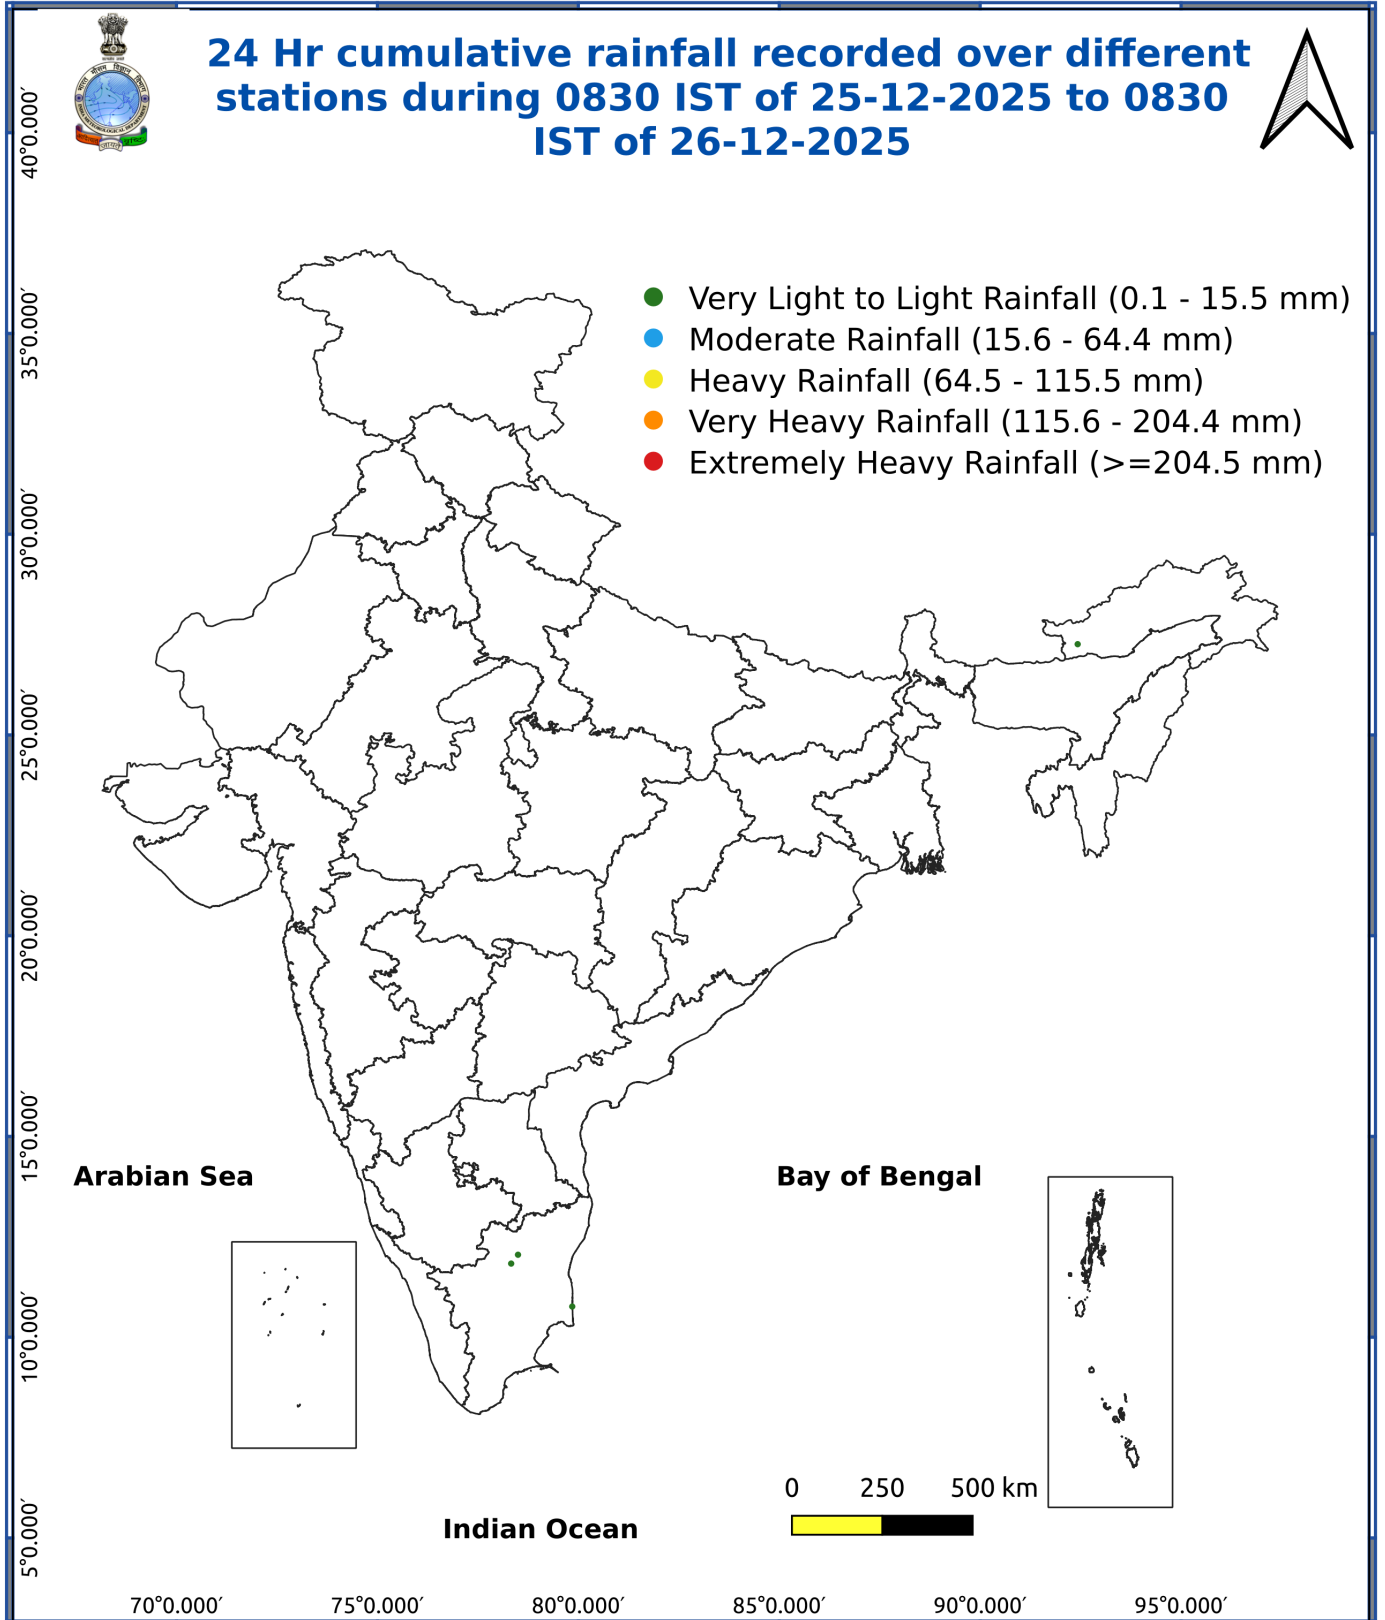

Fig. 3: Minimum Temperatures Dated 2025-12-27

Fig. 4: Departure of Minimum Temp. Dated 2025-12-27

Impact and Actions

Impact expected due to dense/very dense fog in the night/morning hours:

Dense to very dense fog conditions during night/morning hours very likely in isolated pockets of Assam till 27th; Himachal Pradesh till 31st; with Dense fog conditions during night/morning hours very likely in isolated pockets over Arunachal Pradesh till 29th, Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, Odisha till 31st; Sub-Himalayan West Bengal & Sikkim till 28th, Uttarakhand till 31st December.

Dense to very dense fog conditions very likely to prevail in night/morning hours in few parts of Bihar till 28th December and Dense fog in isolated pockets for subsequent 4 days.

Dense to very dense fog conditions very likely to prevail in night/morning hours in few parts of Punjab Haryana-Chandigarh till 30th December and in isolated pockets for subsequent 2 days.

Dense to very dense fog conditions very likely to prevail in night/morning hours in some/many parts of Uttar Pradesh till 01st January 2026.

Transport and Aviation:

May affect some airports, highways and railway routes in the areas of met- sub-division.

Difficult driving conditions with slower journey times.

Unless taken precautionary measures, it may lead to some road traffic collisions.

Power Sector:

Chances of Tripping of Power lines in the very dense fog routes.

Human Health:

Lung related health impacts: Dense fog contains particulate matter and other pollutants and in case exposed it gets lodged in the lungs, clogging them and decreasing their functional capacity which increases episodes of wheezing, coughing and shortness of breath.

Impact on people having asthma bronchitis: Long time exposure to dense fog may cause respiratory problem for people having asthma bronchitis and other lung related health problems.

Eye Irritation: Dense fog contains pollutions of various types and these Pollutants in the air if exposed may tend to irritate the membranes of the eye causing various infections leading to redness or swelling of the eye.

Action suggested:

Transport and Aviation:

Be careful while driving or outing through any transport.

Use fog lights during driving.

Be in touch with airlines, railways and state transport for schedule of your journey.

Power Sector:

To keep ready Maintenance Team.

Human Health: To avoid outing until unless emergency and to cover the face.

Impact expected due to

Cold Wave conditions very likely in isolated pockets of north Rajasthan on 27th, Jharkhand on 27th & 28th December.

Cold day to severe cold day conditions very likely at a few places over East Uttar Pradesh on 26th & 27th;

Cold day conditions very likely at isolated pockets over Sub-Himalayan West Bengal on 26th; Bihar during 26th-30th, Uttarakhand during 26th -28th; West Uttar Pradesh on 26th & 27th and East Uttar Pradesh on 28th December.

An increased likelihood of various illnesses like flu, running/ stuffy nose or nosebleed, which usually set in or get aggravated due to prolonged exposure to cold.

Do not ignore shivering. It is the first sign that the body is losing heat. Get Indoors.

Frostbite can occur due to prolonged exposure to cold. The skin turns pale, hard and numb and eventually black blisters appear on exposed body parts such as fingers, toes, nose and or earlobes. Severe frostbite needs immediate medical attention and treatment.

Impact on agriculture, crop, livestock, water supply, transport and power sector at some places.

Action suggested:

Wear several layers of loose fitting, light weight; warm woollen clothing.

Cover your head, neck, hands and toes adequately as majority of heat loss occurs through these body parts.

***Red color warning does not mean "Red Alert" Red color warning means "Take Action"**

Forecast and warning for any day is valid from 0830 hours IST of day till 0830 hours IST of next day

For more details kindly visit <https://mausam.imd.gov.in> or contact 011-2434-4599

(Service to the nation since 1875)

Wear several layers of loose fitting, light weight; warm Woolen clothing rather than one layer of heavy cloth. Eat vitamin-C rich fruits & vegetable and drink sufficient fluids preferably warm fluids to maintain adequate immunity.

Avoid or limit outdoor activities.

Keep dry, if wet, change cloths immediately to prevent loss of body heat. Wear insulated/waterproof shoes. Warm the affected area of the body slowly with lukewarm water; do not rub the skin vigorously.

If the affected skin area turns black, immediately consult a doctor.

Maintain ventilation while using Heaters to avoid inhaling toxic fumes.

Take safety measures while using electrical and gas heating devices.

Extreme care needed for vulnerable people.

Seek medical attention as soon as possible for someone suffering from frostbite/ Hypothermia.

Protect livestock from cold weather.

Agromet advisories for various parts of the country

Agromet advisories for likely impact of Cold Waves / Low Temperatures

In Punjab, Haryana and Jharkhand, apply light and frequent irrigation to the standing crops in the evening to protect the crops from low temperature stress. Use mulching and cover vegetable nurseries and young fruit plants with straw / polythene sheets to maintain optimum soil temperature.

Livestock / Poultry

Keep cattle inside the sheds during night and provide dry bedding to protect them from cold.

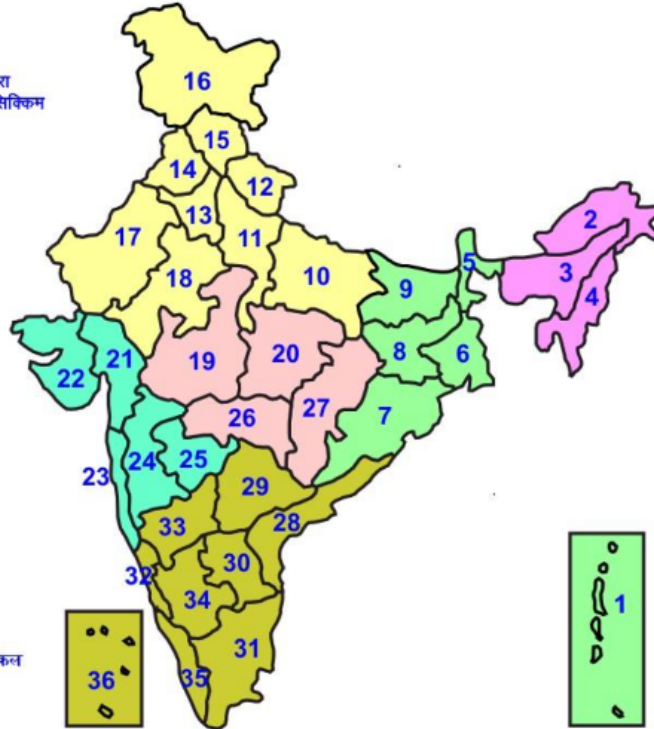

Keep the chicks warm by providing artificial light in the poultry sheds.

Agromet advisories for likely impact of Thunderstorm / Gusty Winds

Provide mechanical support to horticultural crops and staking or support to vegetables and young fruit plants / fruit-bearing plants to avoid lodging due to strong winds.

Rain/ Snow *

Heavy: 64.5 to 115.5 mm/cm *
Very Heavy: 115.6 to 204.4 mm/cm*
Extremely Heavy: > 204.4 mm/cm *

Heat Wave

When maximum temperature of a station reaches $\geq 40^{\circ}\text{C}$ for plains and $\geq 30^{\circ}\text{C}$ for hilly regions
(a) Based on Departure from normal

Heat Wave: Maximum Temperature Departure from normal 4.5°C to 6.4°C .
Severe Heat Wave: Maximum Temperature Departure from normal $\geq 6.5^{\circ}\text{C}$

(b). Based on Actual maximum temperature

Heat Wave: When actual maximum temperature $\geq 45^{\circ}\text{C}$.
Severe Heat Wave: When actual maximum temperature $\geq 47^{\circ}\text{C}$

(c). Criteria for heat wave for coastal stations

When maximum temperature departure is $> 4.5^{\circ}\text{C}$ from normal. Heat Wave may be described provided maximum temperature $\geq 37^{\circ}\text{C}$

Warm Night

When maximum temperature remains 40°C

Warm Night: When minimum temperature departure 4.5°C to 6.4°C .
Severe Warm Night: When minimum temperature departure $> 6.4^{\circ}\text{C}$.

Cold Wave

When minimum temperature of a station $\leq 10^{\circ}\text{C}$ for plains and $\leq 0^{\circ}\text{C}$ for hilly regions.

(a). Based on departure

Cold Wave: Minimum Temperature Departure from normal -4.5°C to -6.4°C .
Severe Cold Wave: Minimum Temperature Departure from normal $\leq -6.5^{\circ}\text{C}$

(b) Based on actual Minimum Temperature (for Plains only)

Cold Wave : When Minimum Temperature is $\leq 4.0^{\circ}\text{C}$
Severe Cold Wave: When Minimum Temperature is $\leq 2.0^{\circ}\text{C}$

(c) For Coastal Stations

When Minimum Temperature departure is $\leq -4.5^{\circ}\text{C}$ & actual Minimum Temperature is $\leq 15^{\circ}\text{C}$

Cold Day

When minimum temperature of a station $\leq 10^{\circ}\text{C}$ for plains and $\leq 0^{\circ}\text{C}$ for hilly regions
Based on departure

Cold Day: Maximum Temperature Departure from normal -4.5°C to -6.4°C .
Severe Cold Day: Maximum Temperature Departure from normal $\leq -6.5^{\circ}\text{C}$

Fog

Phenomenon of small droplets suspended in air and the horizontal visibility $< 1\text{km}$

Moderate Fog: When the visibility between 500-200 metres
Dense Fog: when the visibility between 50- 200 metres
Very Dense Fog: when the visibility < 50 metres

Thunderstorm

Sudden electrical discharges manifested by a flash of light (Lightning) and a sharp rumbling sound (thunder)

Dust/Sand Storm

An ensemble of particles of dust or sand energetically lifted to great heights by a strong and turbulent wind.

Frost

Ice deposits on ground

Air temperature $\leq 4^{\circ}\text{C}$ (over Plains)

Squall

A strong wind that rises suddenly, lasts for atleast 1 minute.

Moderate: Wind speed 52-61 kmph
Severe: Wind speed 62-87 kmph
Very Severe: Wind speed > 87 kmph

Sea State

Effect of various waves in the sea over specific area

Rough to very rough: Wind speed 41-62 kmph (22-33 knots) & Wave height 2.5-6 metre
High to very high: Wind speed 63-117 kmph (34-63 knots) & Wave height 6-14 metre
Phenomenal: Wind speed > 117 kmph (> 63 knots) & Wave height > 14 metre

Cyclone

Cyclonic Storm: Wind speed 62-87 kmph (34-47 knots)
Severe Cyclonic Storm: Wind speed 88-117 kmph (48-63 knots)
Very Severe Cyclonic Storm: Wind speed 118-165 kmph (64 - 89 knots)
Extremely Severe Cyclonic Storm: Wind speed 166-220 kmph (90 -119 knots)
Super Cyclone Storm: Wind speed > 220 kmph (> 119 knots)
